

"User Perspective"

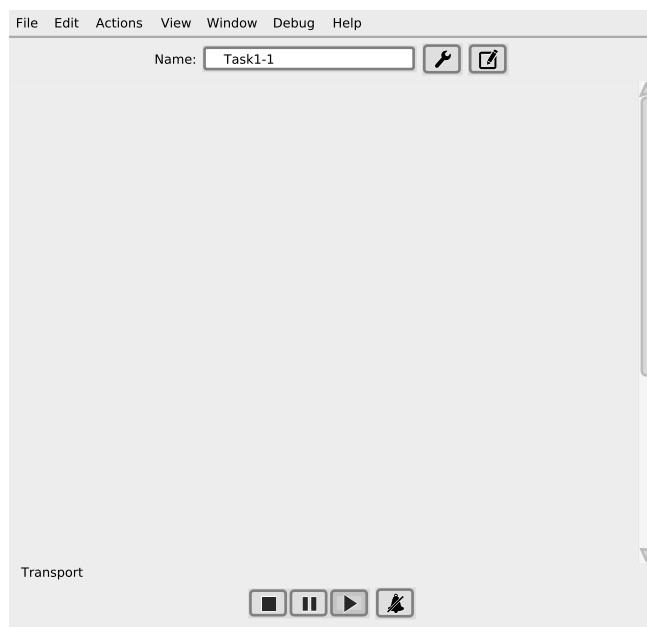

Workspace

- direct embedding of data source entries
- simplification of artifact-location
- possibly: unification with simple-UI (container = folder view, layout)

Data Sources

- improve 1D plots / plot selection
- table view (data cells)
- reference markers for REPL ?
- easy creation of subsets of data

Sonification Editor

- improve UI controls
- improve transport controls
- improve error handling
- improve UI feedback (e.g. render information about matrix size, number of sound sources etc.)
- possibly: "lock" / "read-only" / "open-copy" for presentations
